

BUILDING ON THE FOUNDATIONS
OF KNOWLEDGE & NETWORK,
YEAR AFTER YEAR

Bringing the spice world under a single roof, the third time

International Spice Conference 2018

Venue: **Crowne Plaza, Jaipur, Rajasthan, India**

Date: **February 4, 5, 6 & 7**

The International Spice Conference (ISC) is today the single most sought after platform to think, act and evolve relevant measures, to discover path-breaking innovations, to face and find solutions, and to work around the volatile, uncertain, complex and ambiguous challenges that the spice industry poses.

In the face of globalization, massive connectivity, disruptive technologies, and shifting powers to the consumer, changing the modus operandi of how value is delivered is essential to staying on top. To stay on top, pragmatic transformation of the business is a must. It is also essential to "Collaborate" to manage the "Transformation" due to multiple stakeholders. Hence the ISC 2018 is all set to catapult the progressive evolution further ahead into a higher orbit by making '**Managing Disruptions through Transformation and Collaboration**' as its core theme.

The All India Spice Exporters Forum (AISEF) along with Cochin Chamber of Commerce & Industry invites you to the third International Spice Conference to be held in Jaipur, the Pink City of India from **4th - 7th February 2018**, at one of the finest addresses in **Jaipur - Crowne Plaza**.

Block the dates, mark your calendars, stick a note on your desktops!
